ThinkVision T24v-30 Monitor

Focused on remote collaboration. Fine-tuned for productivity!

A fun go-getter for the home and office.

The ThinkVision T24v-30 Monitor is the perfect companion for work - especially when you need to collaborate with your teams remotely! Its 23.8-inch borderless screen size ensures that you have a monitor that's compact but still gives you enough screen real estate to view two windows side by side. You'll always get a clear view of the screen, irrespective of where you're sitting, with the In-Plane Switching panel that affords wider viewing angles with no distortion. Work documents and video content always look clear and crisp, thanks to the FHD resolution. Two noise-cancellation microphones, coupled with two 3W speakers ensure that all your video conferences and meetings run without any hiccups! Connecting your computer to your ThinkVision T24v-30 Monitor will never be a problem, thanks to a variety of input options – 1 x VGA, 1 x HDMI 1.4, and 1 x DP 1.2. Getting to your work has never been as seamless, with the Windows Hello Facial Recognition feature made available by the IR+RGB camera, while the 2MP, 1920 x 1080 resolution camera ensures that you always look crystal-clear to all your colleagues. Plugging in and accessing your peripherals and storage devices gets swifter, with the in-built USB hub that offers four USB Type-A ports. The LTPS stand allows for more flexibility as its lift, tilt, pivot, and swivel functions make all the adjustments to ensure you're always in your most comfortable posture. Ensuring that your eyes experience no strain while you work is important, and that's taken care of by our Natural Low Blue Light technology. Additionally, your privacy is kept front and center, with a privacy shutter that covers the camera. The ThinkVision T24v-30 Monitor helps you get all your work done with supreme ease, whether at home or at the office!

Prepped for productivity

The ThinkVision T24v-30 Monitor's 23.8-inch screen gives you a compact display to work with while the borderless design not only gives the monitor a contemporary look but also increases the overall screen real estate. The In-Plane Switching panel allows for clarity no matter the angle you are viewing it from.

Tech that's tailored for remote work

Remote official video meetings have never been as simple and clear, with the in-built microphones, speakers, and 1080p front camera on the ThinkVision T24v-30 Monitor. Attaching peripherals to boost productivity is easier than ever, using side-mounted USB-A ports. Getting to work needs no waiting, as the ultra-fast login supported by Windows Hello Facial Recognition gets you going in a flash.

Ergonomics that boost productivity

Getting your setup just right goes a long way in boosting productivity, and that's exactly what you can do with the lift, tilt, pivot, and swivel functions that allow you to adjust the ThinkVision T24v-30 Monitor to suit your comfort. Additionally, the monitor's Natural Low Blue Light technology protects your eyes from harmful blue light without any color distortion.
